Takeout Checks:

Any contact where a player gains unnecessary momentum to knock another player to the ground. Points of emphasis for the official making the call are force and intent. Hip checking from the side, bodying up, stick checks and boxing out the opponent are all legal contact. A body check from the front is legal if the player initiating contact does not lower his helmet (spearing) and the official deems that the force is not excessive. The body checked opponent leaving his feet is usually, not always, evidence of excessive force; the body checked opponent being legally pushed out of the play is not. A player who trips or falls after coming in contact with another player is not necessarily a victim of a takeout check. It is potentially incidental contact, and therefore a no-call.
